

Elisha Gray	<p>Familiar Talks on Science—Electricity and Magnetism</p> <p>Elisha Gray (August 2, 1835 – January 21, 1901) was an American electrical engineer who co-founded the Western Electric Manufacturing Company. Gray is best known for his development of a telephone prototype in 1876 in Highland Park, Illinois and is considered by some writers to be the true inventor of the variable resistance telephone, despite losing out to Alexander Graham Bell for the telephone patent.</p> <p><i>Nature's Miracles: Familiar Talks on Science</i>, published in 1900, is a discussion of science and technology for the general public. Volume II is subtitled <i>Energy and Vibration: Energy, Sound, Heat, Light, Explosives</i>. (Summary from Wikipedia) (Summary from Wikipedia)</p> <p>Read by Librivox volunteers.
